

CHAPTER 11

Part V. From the Marginal Questions

1. What dangers develop from underemphasizing and overemphasizing Christ's objective teaching (God's external call)?

2. Why did the Old Testament priests bless the people *after*, but not *before*, their sacrificing and interceding work was completed? How does this relate to Christ's "foundational" and "resulting" work?

3. Why is the one type of Christ's obedience termed "active" and the other "passive"?

4. What great strength and comfort are missed by those who do not know Christ as their great High Priest?

5. By nature, who is king in our hearts? What will take place if a person, church, or society follows self-gods instead of the true God?
